PROFESSIONAL SUMMARY

Third-year Computer Science undergraduate at Zagazig University (GPA: 3.94/4.0) focused on .NET Backend Development and Software Engineering. Solid background in algorithmic problem solving and Object-Oriented Programming. Currently expanding practical engineering capabilities through the Information Technology Institute (ITI) Summer Training in .NET Web Development.

EDUCATION

Zagazig University — Faculty of Computers and Information **2024-Present**

Undergraduate, Information Technology Department

- **Cumulative GPA:** 3.94 / 4.0
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Systems

TECHNICAL TRAINING & EXPERIENCE

Information Technology Institute (ITI)

Trainee – Web Development using .NET (Summer Training)

- Training in backend web development using C#, ASP.NET Core, Entity Framework Core, and SQL Server.
- Developing RESTful APIs and practicing relational database design and migrations.

ICPC Zagazig Community

Mentor & Competitive Programmer

- Mentored junior students in foundational algorithms and problem-solving techniques.
- Solved algorithmic challenges at an intermediate level (Codeforces, VJudge).

TECHNICAL SKILLS

- **Programming Languages:** C#, C++, Python, SQL.
- **Software engineering:** OOP, Solid principles, Clean architecture, Modular monolith, Background job & Asynchronous programming, Result pattern, Concurrency.
- **Backend Technologies:** ASP.NET Core, RESTful APIs, Entity Framework Core, LINQ, Dependency. Injection, Swagger / OpenAPI.
- **Databases:** Microsoft SQL Server.
- **Tools & Platforms:** Git, GitHub, Visual Studio, VS Code, Jira, AI Productivity Tools.
